Shipping information to other EU countries and worldwide

We can ship your delivery or you can arrange shipping yourself. Please contact us in this regard.

Shipping costs depend on several factors:

Shipping destination

Value of goods

Weight

Volume

Shipping method

The shipping costs are determined on this basis by us and shown on the corresponding invoice.
After completion of the ordering process, we will send you this by e-mail.

*As the shipment of rims and wheels is calculated as "oversize" (volume weight) by the courier services, therefore we will have to charge an oversize surcharge per parcel for the shipment of these product groups.

Freight insurance

To ensure the safety of your products, we charge a transport insurance flat rate for order values above 500,00 €:

Order value	Flat rate
from 500,00 €	0,95 €
from 1.000,00 €	1,50 €
from 2000,00 €	2,50 €
from 5000,00 €	5,95 €

All data and prices are based on information available at the time of printing.

Typographical errors are reserved.

Our GTC, which are presumed to be known, apply.
