## **Shipping information to other EU countries and worldwide**

We can ship your delivery or you can arrange shipping yourself. Please contact us in this regard.

Shipping costs depend on several factors:

*Shipping destination*

*Value of goods*

*Weight*

*Volume*

*Shipping method*

The shipping costs are determined on this basis by us and shown on the corresponding invoice.  
After completion of the ordering process, we will send you this by e-mail.

\*As the shipment of rims and wheels is calculated as "oversize" (volume weight) by the courier services, therefore we will have to charge an oversize surcharge of 6 EUR per parcel for the shipment of these product groups.

### **Freight insurance**

To ensure the safety of your products, we charge a transport insurance flat rate (incl. VAT) for order values above 500,00 €:

<b>Order value</b>	<b>Flat rate</b>
from 500,00 €	0,95 €
from 1.000,00 €	1,50 €
from 2000,00 €	2,50 €
from 5000,00 €	5,95 €

All data and prices are based on information available at the time of printing.

Typographical errors are reserved. All prices are net prices.

Our GTC, which are presumed to be known, apply.
